DETAILED ACTION

Specification

The specification lacks the normal breath of a specification in US practice. Applicant is advised to review the specification of the prior art used in this office action as an example.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. §102(b) as being anticipated by Powell (US 6,219,967 B1) .

As to Claim 1, Powell discloses a planter made from a single stone (Fig. 4, 14 of Fig. 3; col. 4 lines 38-40) comprising a flat bottom (shown in Figs. 3 and 4), a drain reservoir (24 of Fig. 3), a planter hole planter hole drilled in the upper section (18 of Fig. 3; col. 4 lines 48-53), and a small hole drilled in the bottom of the planter hole for drainage (20 of Fig. 3).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wilson, JP2001-69857, and JP2002-223639 disclose in the prior art various stone planters.
